FURTHER PAPERS.

Department.	Number.	Series.	Date.

29711E/54

Sub: ELECTRICITY - Pykara Electricity System - South Kanara District - Extension to Coondapur Panchayat area and suburbs.

Ref: From the E.O., Coondapur Panchayat Board letter No.307/54-A dated 30-3-54
From the C.O.E(S) Lr.No.6462 E/52-5, dated 25-5-54.

....

"May be examined and put up"

A.B.Shetty/8.4.54.

The file relates to the request of the Coondapur Panchayat Board for supply of electricity to Coondapur under top priority.

2. It may be mentioned that in March 1952, the public of Coondapur, the Bar Association and the Panchayat Board of Coondapur requested that in view of the urgent need for extending electric supply to Coondapur, a thermal station might be established at the place with the old replaced engine sets at Udipi. The C.E.(E) at that time stated that the place would get hydro electric supply from the Jog power by the middle of 1954 and in the meanwhile, it was not worthwhile to start a Thermal station there. The petitioners were informed accordingly in this deptt.'s letter No.19761 I/52-2, dated 28-6-52.

3. The E.O., Coondapur Panchayat Board has now referred to the above letter and has stated that there is a move to extend power from Jog falls to S.Kanara District and lines are being put up for extending electricity to some places other than Coondapur. He has pointed out that the agricultural and industrial potentialities of the town could be tapped fully by the supply of electric energy and therefore requested that supply of power may be extended to the Panchayat under top priority. The E.O has also enclosed a copy of Panchayat Board's Resolution No.357 dated 23-3-54 on the subject. The C.E.(E) has stated that supply of power to Coondapur

2971 E/54

1211/7.6

in S.Kanara will be feasible only after the materialisation of Coondapur sub-station under South Kanara Scheme and after the receipt of bulk supply of Jog power from Mysore Government.

4. Attention is invited to the minutes of M(H) and the note of Secy. thereon on pp.1-2 n.f. of Lr. No.19761 III/52-2, dated 23-6-52. Although the agreement for the supply of Jog power from the Mysore Govt. was completed in October 1953, supply of power is now expected to materialise only by about the middle of 1955. Even if a scheme contemplating supply to Coondapur Panchayat is sanctioned now, supply will be feasible only after June 1955. Till now, no scheme has been submitted to the Govt. for sanction. The C.O.E(S) will presumably submit such schemes hereafter but even if they are sanctioned they will be taken up for execution only in the strict order of priority unless the Govt. accord special prioirty in the matter.

5. The E.O., Coondapur Panchayat Board may be informed of the position. Draft Memo is submitted. The file may be circulated to M(H) through M(W)

MINISTER FOR PUBLIC WORKS 8 APR 1954 GOVT. OF MADRAS

ASST. SECRETARY TO GOVERNMENT 9-APR 1954 PUBLIC WORKS DEPARTMENT

Sub:- Electricity supply from Jog - to Coondapoor Town and suburbs - request made -

****

I beg to submit that the Government in their letter No. 19761 1976-I-52-2 dated 23-6-52 had intimated that Coondapoor will get hydro electric supply ~~to the Coondapoor Town and suburbs~~ by the middle of 1954.

2 The public have now come to know that there is a move to extend the supply of electric power to this District from Jog and lines are being put up now for extension to other places in the District. Though Coondapoor Taluk is a nearer place to the Jog, Electric supply, the Government seems to have not moved in the matter so far to extend the lines to this place, where there is greater demand and utility for electric energy than in other places of this Distict, where there is no power supply now. The Public of Coondapoor have therefore approached the Panchayat to move the Government again in time to gove top prority to the supply of power to Coondapoor also considering the best scope in this Taluk for the improvement of agricultural and industrial needs.

3 There is not scarcity of water either in Coondapoor Town or in other parts of the Taluk as the sub-soil water is at a high level. There is therefore best scope for the improvement of agricultural lands and bring under cultivation waste lands by the supply of electric energy to this place.

4 There is also much scope for expansion of industrial needs of the town by the supply of electric energy

ticular and Taluq in general. In Coondapoor Town itself there two tile factories, two rice mills, one ply-wood match factory, three flour grinders, five electirc current generating sets, five pump sets used for agricultural purposes and two permanent cinema houses. Thus machines aggregating more than 200 horse power are working daily in the town for the above purposes. Besides there are three printing presses. Best varieties of timber is available t a short distance from the town and there is scope to have more timber yards. There Panchayat therefore feels that by the supply of electirc energy to this place the industrial potentalities of the town also could be tapped fully.

It is understood that necessary investigation and survey to extend supply of power to Coondapoor had already been done by the concerned department about the needs, utility etc., of supplying of electricity to this place The perusal of its departmental report by the Government may show the real necessity or otherwise of extending the power supply to this place in preference to other places in this District.

In the circumstances, the Government may be pleased to consider the proposal of the Panchayat in the matter of giving priority in the supply of electricity power to this Panchayat area and suburbs and issue favourable orders in the matter.

A copy of Panchayat Resolution Number 357/23.3.54 is enclosed.

No.6462.F/52-5 dated 25th May 1954

Sir,

Sub: Electricity--Pykara Electricity System--South Kanara District--Extension of supply of Electricity to Coondapur Panchayat area and suburbs.

Ref: Govt. Memo.No.29711.E/54-1 dated 15-4-54 and reminder thereon dated 21-5-1954.

Supply of power to Coondapur in South Kanara District will be feasible only after the materialisation of Coondapoor Sub-station under South Canara Scheme and after receipt of bulk supply from Mysore Government for the South Canara area. In this connection I would invite reference to my letter No.6462.F/52-3 dated 24-3-1953.

2. Jog power from Mysore for South Canara area is expected to be supplied ~~temporarily~~ only about the middle of 1955 and extension of electricity in South Canara District can therefore be possible only after that time. This position has also been indicated to Government in my letter No.574.F/54-4 dated 23-4-1954. Government exchange reminder is returned herewith.
